How long have you been using OSAS and TRAVERSE?

Our clients who are 12 or more years old users of OSAS and/or TRAVERSE:

Company	Client Since	# of years	Nov promo discount
Company S	1993	18	45%
Company C	1995	16	40%
Company K	1995	16	40%
Company S2	1999	12	30%
Company G	1996	15	37.5%
Company B	1988	23	50%
Company B2	1986	25	50%
Company F	1995	16	40%
Company M	1991	20	50%
Company Q	1993	18	45%
Company R	1995	16	40%
Company W	1993	18	45%

Boy, do we have loyal clients, or what?

Don't forget to set back your clocks this coming weekend!
Your computers *should* do it automatically.

How does this promotion work?

Thank you for your loyalty. From now until November 30, 2011, you can receive 2.5% off new Open Systems software products **for every year you've used Open Systems software.** That equals great savings no matter how long you've been with the Open Systems family.

Promotion Applies to:

- New Applications
- New Users

2.5% discount X number of years as a customer = your savings.

Fine Print:

- Must be current on maintenance to qualify for promotion.
- Discount does not apply to third party applications, upgrades, or maintenance.
- Maximum discount 50%.

So, what does this mean?

If you planned to add a few users to your system, November is the time to do it!

That additional application, maybe Info-Alert, Banking, Fixed Assets or Sales Order, etc., that you have been eyeing is now a lot cheaper - during the month of November! Now is the time to contact us.

But here is the best news: The fine print states that you must be current on Maintenance:

If your Maintenance has expired, contact us and we will talk to Open Systems and get you back on track, with a discount, this month only!

Info-Alert Web-Based Presentation

Info-Alert is an automated "Alert" application which searches your business data looking for conditions that meet a specific set of parameters that you define. Once any of these conditions are found, Info-Alert sends an alert or action via email, fax, or by report to customers, vendors, or employees.

What versions will Open Systems support for the coming Year End?

To help ensure that you are prepared, please note the versions of OSAS and TRAVERSE that will be supported for the coming year end.

As in years past, Open Systems will test on the most current build of each supported version of OSAS and TRAVERSE, and you will need to upgrade to the current build to install and use the updates. To be eligible to receive any compliance update, you must be current on the Software Maintenance program.

OSAS

Open Systems will provide year-end Compliance Updates (2011 W-2s, 2011 1099s, and 2012 tax table updates) for OSAS **versions 7.52 and 7.61.**

TRAVERSE

Open Systems will provide year-end Compliance Updates (2011 W-2s, 2011 1099s, and 2012 tax table updates) for TRAVERSE **10.5 build 9092** (with prior year-end builds installed) and **TRAVERSE 11.**
